

CAVITY SLIDING AND STACKING DOORS

Cavity sliding and stacking doors offer a great solution for opening up an entire space connecting the inside to out.

PRODUCT FEATURES

Cavity sliding and stacking doors offer a great alternative to bifold doors. They open up a space fully without protruding onto your out door area. When fully open they provide unobstructed views and access.

These doors are available in custom made sizes to suit your requirement's.

They are available in a range of configurations, either sliding or stacking and can stacking in a single direction or bi-part.

They can be screened either with a stacking or sliding screen or a Centor retractable screen can be incorporated into the opening to pull across the door.

Recessing your sills creates a seamless flow from inside to out.
